Homework 11- Final Project Use Cases and Requirements
CS 412

For this assignment, your team's task is to create the **use cases** and **requirements** for the final project. Your use cases and requirements must be exhaustive.

You have **two** deliverables:

1) **Use Case storyboards**
    a. Specifies goal(s) of software system (from client's perspective).
    b. Defines *specific* steps (and alternate) paths for each goal.

2) **Requirements**
    a. What software *must* do.
    b. Must be technologically agnostic: i.e., focused on the *what*, not "how".
    c. Must be specific, concise, and fine-grained.
